***YOUTH WORK:** Youth work can be defined as a broad range of activities (e.g. social, cultural, educational, sports-related and political) carried out with, by and for young people through non-formal and informal learning. Youth work has three essential features: - Young people choose to participate; - The work takes place where the young people are; - It recognizes that the young person and the youth worker are partners in a learning process. Youth work helps young people to reach their full potential. It encourages personal development, autonomy, initiative and participation in society.
